

Name: _____

Summer Math Log

In an effort to combat summer learning loss, I am recommending rising 5th graders to complete the below IXL assignments and practice multiplication and division facts for at least 30 minutes a week. Logs will be due at the beginning of the day on Friday, August 18, 2023. Students who complete everything will receive a special treat.

Tips:

- Workout IXL problems on a separate sheet of paper.
- Do your best to get a 100 smart score. If you have practiced a skill for at least 30 minutes, and have tried your best, then you may count that skill as completed.
- Make sure you are working under the 5th grade math tab!

IXL Assignment (5th Grade Tab)	Date Completed and Parent Initials
Writing numbers in words: Convert digits to words (A - Place Values and Number Sense)	
Rounding (A - Place Values and Number Sense)	
Add and subtract whole numbers up to billions (B - Addition and Subtraction)	
Multiply by 1-digit numbers (C-Multiplication)	
Multiply numbers ending in zeroes (C-Multiplication)	
Multiply 2-digit numbers by 2-digit numbers (C-Multiplication)	
Division facts to 12 (D-Division)	
Divide multi-digit numbers by 1-digit numbers (D-Division)	
oGreatest common factor (F-Number Theory)	

Convert between improper fractions and mixed numbers (K-Fractions and Mixed Numbers)	
Add and subtract fractions with like denominators (L-Add and Subtract Fractions)	
Add and subtract money amounts (S-Money)	
Write variable expressions (V-Variable Expressions)	
Interpret line graphs (W-Data and Graphs)	
Perimeter with whole number side lengths (EE-Geometric Measurements)	

Multiplication and Division Facts Practice (1-12)
